About This Game

Kick Them Out!!! will test your dexterity.
Control a customizable cumbrous ball through 40 challenging levels that requires skill, patience and self-control to cope with failure.

- Kick all green cubes off the platform! Beware of the black obstacles - the slightest contact and you will explode! Boom! Boom! Boom!

- Classical pieces of music you will soon learn to hate!

- Complete levels quickly to unlock new levels!

- Now with Steam Achievements!

"Hi I'm Max, the maker of Kick Them Out!!!. My aim was to create a challenging game within the time span of one month. You have to complete around 40 levels to beat the game. Every five levels, you will see some new items/objects/obstacles, so you have a progression in complexity and difficulty. I hope you have as much fun playing the game as I had creating it. Thanks!"
